

Vocational Class

Slip into our T-Shirt Palace Learning Center

The Vocational Skills Class provides needed assistance to adults seeking employment. In addition to providing guidance and encouragement, eligible clients will have hands on experience and coaching. We will provide 4 Phases for individuals to complete throughout this program. The Phases cover 15 weeks of instruction and an apprenticeship. The final phase is a maintenance program that supports you when in a job position.

- * The primary goal of this program is to provide adults with soft skills, job-related skills, employability skills, and life skills that will enable them to participate in work and community activities. We will also provide them with the opportunity to prepare for the transition to the workforce. The program is structured so that clients will have real life experiences while obtaining these skills.

SKILLS: Resume writing, Job Search, Applications

Dressing for Success, Interviewing skills
